ABSTRACT

This document contains objective tests for each topic in the Meatcutting Workbook, Part 2, which is designed for apprenticeship meatcutting programs in California. Each of the 30 tests consists of from 5 to 65 multiple-choice items with most tests containing approximately 10 items. The tests are grouped according to the eight units of the workbook: breaking and cutting meat; jobbing; sausage, cured meats, and convenience foods; mathematics; meat packaging and handling; market operation; safety and sanitation; and workers' legal rights and benefits. (YLB)

Reproductions supplied by EDRS are the best that can be made , from the original document.

١

Preface

The California State Department of Education, through the Bureau of Publications, provides for the development of instructional materials for apprentices under provisions of the California Apprentice Labor Standards Act. These materials are developed through the cooperative efforts of the bureau and employer employee groups representing apprenticeable trades.

Meatcutting Testbook, Part 2, which was first published in 1975, was planned and prepared under the direction of the Statewide Educational Advisory Committee for the Meatcutting Industry consisting of employee and employer representatives. The members of this committee were Anthony Aiello, San Francisco, Warren J. Auld, Upland; Jack G. Cyphers, Sacramento, Fred L. Feci, San Jose, Maurice Gettleman, Inglewood, Everett Matzen, San Francisco; Philip R. Melnick, Los Angeles; Arthur Meyer, San Diego, and Rosemary Mucklow, San Francisco.

Duane "Whitey" Ulrich, Artesia, coordinated revision activities for this 1982 edition for the educational advisory committee, and Bob Klingensmith, Publications Consultant, Apprenticeship, directed publications activities for the Bureau of Publications.

This testbook includes objective tests covering each topic in *Meatcutting Workbook*, Part 2. The value of these tests depends to a great extent on the care exercised by the instructors and supervisors in keeping the tests confidential. Every precaution should be taken to see that these books are used correctly so that the apprentice can gain maximum benefits from them.

In using these tests, school supervisors and instructors should feel free to modify their application of the material to conform with local needs. Instructors may wish to supplement the workbook topics with material that they have developed themselves. In this case, they should augment these tests with questions based on the supplementary instructional material developed for the workbook.

8. If a	purchaser specifi	ed a should	ler lamb ro	oast	, the item number w	ould t	e:	•	8	····
	1,180B	•			1,367A					

. The	largest suggested size shown	in the beef i	ndex is for steaks weighing:	9
1.	16 ounces	` 3	32 ounces	
	24 ounces		36 ounces	
	destion to chops and steaks be used to produce:	s, pork cuts	from the leg, loin, butt, and picnic	10
1.	Pork cutlets	3.	Pork sausage	
	Pork fillets		Pork for chop suey	•
. Wha	t is the only portion cut veal	product tha	at has a letter in its item number?	11
. 1.	Rib chops	3.	Loin chops	•
	Regular cubed steaks	4.		
. Port	ion lamb chop sizes are with	in the same	weight range as:	12
13	Pork	3.	Beef	•
	Veal		None of the above	
. Lam	b, yearling mutton, and mut	ton chops ra	ange in size from:	13
1.	2 to 9 ounces	. 3,	2 to 10 ounces	•
	3 to/9 ounces	41	3 to 10 ounces	
. Veal	and calf chops are usually w	vithin the su	ggested weight range of:	14
. 1.	3 to 10 ounces	3.	3 to 16 ounces	
. 2.	3 to 12 ounces	. 4.	3 to 24 ounces:	
. Whi	ch steak and chop index has	the least nu	mber of portion control items?	15
1.	Beef ·	3.	Veal /	
2.	Lamb	4.	Pork	\
. Whi	ch of the following meats is a	assigned por	tion item-No. 1,295?	16
1.	Lamb for stewing.	3.	- - -	₩,
2.	Veal loin chop	4.	Cube steak, special	<i>i</i>
	ess otherwise specified, a we than:	ight toleran	ce of ¼ ounce is permitted on items	17
•	,	2	Q hash ton	• •
1. 2.	3 ounces 6 ounces	3. 4.	8 ounces	
	,	. *		,

18. For portion control items of 18 ounces or more, the weight tolerance (over and under) is:						
1.	1 ounce	3.	1½ ounces			
2.	1¼ ounces		1% ounces			
19. Whe	en 8-ounce steaks are specified, indiv	idua	I steaks of what size are applicable?	19		
1.	7-7½ ounces .	3.	7½-8½ ounces			
2.	7-8 ounces	4.	8-8½ ounces			
20. The state of refrigeration may be specified by the purchaser as:						
1.	Chilled	3.	Chilled or frozen			
2.	Frozen	4.	Any of the above			

UNIT B - JOBBING

TOPIC 4 - ORDER PROCESSING

Decide which of the four answers is correct, or most nearly correct; then write the corresponding number in the blank at the right.

1. The receiving station must be a strong point of:				
	Honesty Efficiency		Accuracy All of the above	•
2. A m	nanifest is similar to a(n):		,	2
	Price list List of cargo		Information booklet Meat specification	
3. The	product grade is usually indicated on	the	:	3
	Purchase order Manifest		Both 1 and 2 None of the above	
4. The	USDA meat grader is responsible for	:		4
	Accepting and certifying Accepting and specifying		Accepting and receiving Accepting and sealing	
5. The	USDA acceptance stamp indicates th	at ti	he product is accepted as:	5
	Certified		Examined Received	
	ulity grade, class mark, yield grade uded in the purchase:	ma	rk, and acceptance stamps are all	6
	Manifest Specifications		Shipment Product	
7. Any	error in a shipment of meat should b	e re	ported to the:	7
	Receiver Dispatcher		Purchasing agent Supplier	
8. Bef	ore discarding meat cartons, the meat	cutt	er should remove the:	8
1.	Covers Grade stamps	_	Inspection stamps	

- 9. The IMPS were developed by the USDA:
 - 1. Acceptance service

- 3. Inspection service
- 2. Consumer and marketing service
- 4. Grading service
- 10. The use of standardized cutting specifications at this time is:

10.____

- 1. Voluntary
- 2. Mandatory

3. Required4. Unchangeable

UNIT C Sausage, Cured Meats, and Convenience Foods

TOPIC 1 - TYPES OF SAUSAGES AND CONTENTS

	`\				
Dec corresp	ide which of the four answers is onding number in the blank at the righ	s contract	orrect, or most nearly correct; then	write	the
	difference between processed and produced through the application of:	pres	erved foods is that processed foods	1	
1	WAL	2	4		
	Water •		Cold		
2.	.Heat	4.	Pressure		
2. Sau	sage was developed by men who were	tryi	ng to find ways to:	2,	
1	Cure meat ·	2	Preserve meat		
۷.	Process meat	4.	Season meat	•	
3. The	mixture of beef and pork used in sau	sage	may be:	3	
2. 3.	In any combination and include non Predominately beef and include non Predominately pork and include non Any of the above	fat	or dry milk		
4. T wo	general classifications of sausage are	don	nestic and:	4	
	<u>, , , , , , , , , , , , , , , , , , , </u>	_	_		
	Imported		Fancy		÷
• 2.	Fermented	4.	Local		
5. A 2	00-pound hog that is ground for sausa	ge s	hould produce about:	5	
1	75 lbs. of sausage	3	125 lbs. or sausage		
	100 lbs. of sausage		150 lbs. of sausage		
	100 100. 91 bacasago	٠.	A		
6. Hot	dogs, bologna, and summer sausage as	re re	eferred to as:	6	_
1	Fresh sausages	3	Classes of sausages	•	
	Domestic sausages '		Fancy sausages		
۷.	Domostic sausages	r.	imity sausages		
7. Sum	mer sausage or cervelat is a very popu	ılar:		7	
1	Semidry sausage	3	Dry sausage		
	Cooked sources	1	Cracked courses		

8: Seas	onings are usually added to the sausa	ge m	ix during the process called:	8
	Flaking — — Emulsifying		Mixing Chopping	
9. Saus	age made from uncured meat is called	1:		9
	Cooked sausage Dry or semidry sausage		Fresh sausage Smoked sausage	
10. Itali	an-, German-, or Swiss-style sausages	are a	11:	10
	Classes of sausage Smoked sausages		Pork sausages Cured sausages	-
11. Salt	, sugar, nitrates, and nitrites are used	as:	•	11
	Seasonings Curing agents	3. 4.	Pickling spices Binders	<i>d</i> .
12. Hov	many kinds of sausage are sold in th	e Ur	nited States?	12
	240 200		180 150	
13. Wha	t kind of process is used to apply liqu	iid s	moke?	13
1. 2.	Soaking Smoking		Spraying Washing	\
14. Dry	sausage differs from other sausages n	ostl	y because it is eaten without:	14
1.	Curing Cooking	•	Processing Preservation	
15. The the:	mixture of meat for dry sausage take	es or	a "green" color when it is put into	15
	Chopper Cutter	.3. ·4.	Mixer . Stuffer	معج
Dry	ing is a crucial process because the:			16
	Temperature changes Mold forms		Meat shrinks Meat is curing	•
17. Ice i	s added to the meat mixture during t	he c	hopping process mainly to:	17
	Add moisture Keep the meat cool	· 3. 4.	Add weight Soften the mixture	•

18. Casings made from animal intestines are called:						
	Natural casings Artificial casings		Cellulose casings Sheep casings	•		
19. The most valuable casings are obtained from:						
	Beef Hogs		Sheep Veal			
20. Clear artificial casings are usually made of:						
1. 2.	Cloth Cotton	3. 4.	Plastic Cellulose			

UNIT C - SAUSAGE, CURED MEATS, AND CONVENIENCE FOODS

TOPIC 2 - LYNCHEON MEATS AND CONVENIENCE FOODS

Decide which of the four answers is correct, or most nearly correct; then write the corresponding number in the blank at the right.

1. Spi	ced luncheon meat, chopped pork,	and ch	opped ham are known as:	1
1. 2.	Baked loaves Minced luncheon meats		Sandwich meats Meat loaves	
2. Mea	at food product loaves must be spec	ified b	y: ·	2
	Size Shape		Weight Summe	
3. Hea	d cheese may not contain:			3
	Snouts Cheeks		Tongue Ears	
4. Ber	liner, Blutwurst, and Biroldo Toscar	io ar e	types of:	4
	Pork sausage Blood sausage		Black pudding All of the above	
	ch one of the following is anothen as TV dinners?	r term	for describing convenience foods	5
	Ready to serve Heat and eat		Ready to eat Ready to cook	•
6. The	most recent innovation in convenie	ence fo	ood is:	6
	Canned ham Dehydrated food		Freeze-dried food, Potted meat	
	eze-dried foods used by campers a	ınd hil	kers are lightweight, compact, and	<i>f</i> 7
	Preparation Reconstituting		Refrigeration Cooking	
8. Free	eze-dried meats are used in:		<i>;</i>	8
1. 2.	Dry soup mixes , TV dinners .		Canned stews Breakfast foods	

- 9. What is considered to be the main disadvantage of freeze-dried foods?
- 9.

Taste
 Quality

- 3. Appeal4. Cost
- 10. Which one of the following is not a component of meat loaf?

10.

- Pork
 Lamb

3. Veal4. Beef

UNIT C - SAUSAGE, CURED MEATS, AND CONVENIENCE FOODS

TOPIC 3 - CURED AND SMOKED MEATS.

Decide	which	of	the	four	answers	is	correct,	or	most	nearly	correct;	then	write	the
correspond	ing num	ber	in th	e blan	k at the ri	ight	•							

•			•	
	most popular method for curing lar	ge c	uts of meat such as outside rounds	1
	Stitch pumping Vein pumping		Artery pumping Needle pumping	,
2. Salt	only cures used primarily on mea	ts tl	nat are to be used for:	₹ 2.
	Dry cures Seasoning		Luncheon meats Corned beef	
3. The	two basic methods of curing meats a	re p	ickle cu ri ng and:	3
	Dry curing Brine curing		Stitching• Injection	
4. Dry	cured meats are expensive, salty, and	shc	w a loss of:	4
	Flavor Palatability		Quality Color	
5. The	amount of pickle solution injected in	ıto į	neat may not exceed;	5
	7 percent · 10 percent		12 percent 15 percent	
	principle of thermal curing consists le it is:	s of	injecting a solution into the meat	6
	Still hot Partially chilled		Being smoked All of the above	
7. Mea	t is smoked to produce changes in the	e :	,	7
	Shape and size Color and flavor		Time and temperature Quality and grade	
8. W ha	at kind of wood fuel produces one of	the	most desirable smoke flavors?	8
1. 2.	Oak Spruce		Hickory Walnut	

9. Besides beef and pork,	other items that are smoked include:	9
 Lamb shoulders Turkeys 	3. Domestic ducks4. All of the above	
0. The difference between usually require:	dry-cured meats and dried meats is that dry-cured meats	10

- Stitching
 Cooking

- 3. Salt only4. None of the above

Di !

UNIT C - SAUSAGE, CURED MEATS, AND CONVENIENCE FOODS

TOPIC 4 - MICROBIOLOGY AND INSPECTION

Decide which of the four answe corresponding number in the blank at the	rs is correct, or most nearly correct; the eright.	en write the
1. Enzymatic action that breaks down called:	connective tissue and makes meat tender is	1
1. Storing	3. Holding	
2. Aging	4. Curing	•
2. An enzyme is a complex, organic:	• ,	2
1. Microorganism	3. Substance,	•
2. Bacteria	4. Yeast	
3. Connective tissue is made up mainly of	of:	3
1. Protein	3. Enzymes	
2. Yeast cells	4. Muscle cells	
4. Cover fat on a carcass may become ra	ncid after removal of the thin layer of:	4
1. Tissue	3. Fat	
2. Skin	4. Moisture	
5. Like other living things, bacteria are r	nade up of:	5
1. Cytoplasm	3. Tissue	
2. Membrane	4. Cells	•
6. Temperatures between 40° and 14 growth of:	0° F. are considered to be ideal for the	6
1. Bacteria	3. Molds	
2. Yeasts	4. Enzymes	*
7. Fungi are parasitic lower plants that c	ontain no:	7
1. Cells	3. Chlorophyll	
2 Bacteria	4. Moisture	
8. Mold is usually a woolly growth that	is identified with:	8
1. Fungi	3. Organisms	•
2. Bacteria	4. Brucella	
	•	

 $\hat{p}_{i,j}$

9. Mol	ds are helpful in producing an antibio	tic c	alled:	9: -
	Pectin Penicillin	.3. 4.	T.	^•
10. Ani	mals may be infected with bacteria:			10
	Before slaughter During slaughter		After slaughter All of the above	•
11. Curi	ing and smoking is helpful in retarding	g:		11
	Salt deposits Enzyme action		Contamination Sterility	•
12. Whi	ch one of the following causes pigmer	nt di	scoloration in meat?	12
	Light Temperature changes		Bacteria All of the above	•
13. Gas:	sing in vacuum-packed meats causes the	he p	ackage to:	13
	Turn green Taste bad		Smell bad Expand	#
14. Pala	tability is a term which means:			14
	A palate Quality	3. 4.	Oxidization Enzymatic action	
15. Bac	teria multiply about every 20 minutes	by:	*	15
1. 2.	Dividing Budding	- •	Fusion All of the above	•

UNIT C - SAUSAGE, CURED MEATS, AND CONVENIENCE FOODS

TOPIC 5 - STORAGE AND HANDLING

	cide which of the four answers is onding number in the blank at the righ		orrect, or most nearly correct; then	write the
	per temperature, humidity, and circu duct is to be:	latio	on are important when the finished	1
· 1.	Transported Displayed		Stored All of the above	ŧ
	st sausage products are stored at a tem t at temperatures as high as:	pera	ature below 40° F., while others are	2
1. · 2.	42° F. 45° F.	3. 4.	52° F. 55° F.	
3. Bef	ore most sausage items are delivered, t	hey	are usually:	3
•	Cooked Smøked		Stored Chilled	\$
4. Ligi	nt and high temperatures may cause th	ne pi	roduct to:	4
	Turn green L. Fade		Bloom All of the above	•
5. Bef	ore frying or baking, fresh pork sausag	ge is	usually:	5
1. 2.	_ ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` `		Steamed - Skinned ,	*
	nkfurters with sheep casings should se them to:	not	be boiled rapidly because it may	6
	Dry out Get hard		Burst Expand	
7. Wit	hout exception, all labels must indicat	e th	e:	7
	Inspection mark Number of servings		Geographical location USDA grade mark	·
8. All	labels must also include the:		• •	8
1.	Common name Net weight	3. 4.	Ingredients All of the above	

- 9. The size of each serving must be given:
 - On all labels
 In red letters

 - 3. When the number of servings is given
 - 4. When there is more than one serving
- 10. When a product is labeled "Italian Style," it must:

10..

- 1. Show location of production
- 2. Be federally graded
- 3. Be imported
- 4. Be made in the U.S.A.

	1. 23 2. 24		25 26			
5 .	The total weight of a ham is 16 pounds. are: butt portion 4.8 pounds; shank half pound of waste. Find what percent the bu	7.2	pounds; slic	es 3.2 pound	s; and 0.8	5
	1. 5 2. 20	3°. 4.	30 45			

UNIT D - MATHEMATICS

TOPIC 3 - COMPUTING PRICES

Decide which of the four answers is correct, or most nearly correct; then write the corresponding number in the blank at the right.

1. A side of beef weighing 305 pounds, of which the round r	represents 24 percent,
was bought for 80 cents per pound. What is the total cost of	

1.____

1. \$26.35

3. \$71.56

2. \$58.56

4. \$95.80

2. The cost of a chuck is \$65.18. If the desired gross profit is 31 percent, what is the total selling price?

2.____

1. \$40.40

3. \$82.78

2. \$42.64

4. \$94.46

3. The weight of a primal cut is 48 pounds, and the weight of a certain type of retail cut from this primal is 7 pounds 8 ounces. What is the percent of yield?

3.____

1. 6.4

3. 15.6

2. 6.66

4. 16.25

4. If round steak is selling for 89 cents per pound, and the price is reduced 10 cents per pound, what is the total loss on 36 pounds?

4.____

1. \$3.60

3. \$8.90

2. \$7.90

4. \$28.44

2. The weight of bottom round is 12.4 pounds, and its listed selling price is 79 cents. The stew meat from the same round weighs 8.4 pounds and is selling for 49 cents per pound. If the selling price of the bottom round is reduced by 4 cents per pound, the new selling price per pound of stew meat must be how much to compensate for the loss?

5.____

1. 53 cents

3. 65 cents

2. 55 cents

4. 83 cents

6. If market sales are \$16,800, rent is \$600, labor costs are \$1,632, material costs are \$264, advertising costs are \$360, and miscellaneous costs are \$296, what is the percent of operating cost?

6.____

1. 4.72

3. 18.7

2. 8.9

4. 81.3

······································	
7. Which one of the following is not a basic step in determining the selling price of meat to be sold at the retail level?	7
 Estimate net profit. Determine operating costs. Determine meat costs. Compare labor costs for carcasses and primal cuts. 	r
8. If the cost of a primal cut is \$31.50, and the total of the selling prices of the retail cuts is \$40.80, what is the percent of gross profit?	8
1. 9.3 2. 22.79 3. 29.52 4. 77.21	
9. Seasonal items are usually offered at sale prices because:	9
 Customers would not buy them otherwise. Higher volume offsets lower prices. The items must be moved immediately. Inventory control required lower prices. 	, Pa.
0. The cost figure used for primal cuts from a carcass purchased from a breaker is based on the:	10
 Yield of retail cuts Yield of that primal cut in the carcass Gost of that primal cut from the breaker Price paid for the carcass as a whole 	*

	planning meat packaging for this customers a choice of:	or the self-service market, the meatcutter should	8
1.	Many packages of the same	e size	·,·
2.	A few small packages and	a few large packages	
	Many small packages and r		
4.	Packages in a variety of siz	es	
9. Whi	ich one of the following is	not a packaging method used at the wholesale	9
leve	1?	,	•
leve	_	3. Glass iars	`
- 1.	Tin cans Plastic cups	3. Glass jars4. Cryovac	`
1. 2.	Tin cans Plastic cups		10,
1. 2.	Tin cans Plastic cups	4. Cryovac	10

TOPIC 2 - PACKAGING MATERIALS

Decide which of the four answers is correct, or most nearly correct; then write the corresponding number in the blank at the right.

1.But	cher paper generally	comes in roll widths	of:		1
	12 and 18 inches 12 and 24 inches		15 and 18 inches 16 and 24 inches		
2. Wha	at type of tray is the	most popular in the	meat industry?		2
	Styrofoam Pulp		Plastic Board	. •	
	ch one of the follo	owing cannot be used	d satisfactorily with meat wrapping		3
	Packaging board Pulp tray		Plastic tray Board tray		
4. Chi	cken bags are made i	from:	,		4
	Pliofilm Polyethylene film		Coated cellophane Uncoated cellophane		•
5. Wha	at percent of meat is	frozen in home freez	ers before it is used?		5
1.	30 50		70 90)
	ch of the following tunnel?	materials is formed	to the shape of the package with a		6
	Shrink film Pliofilm		Cellophane Stretch film		
7. The	most popular method	od of packaging liver	is the:	J	7
	Glass jar Pulp tray		Cellophane container Plastic cup		
8. Wha	it must be allowed to	o offset the weight of	the soaker in the meat package?		8
	Less meat Extra tare		Discount Price increase		

9._

1. 3 days

7 days
 9 days

2. 5 days

10. What type of tray is used to permit the customer to see both the bottom and top side of the meat?

10._

Styrofoam tray
 Pulp tray

3. Plastic tray4. Board tray

TOPIC 3 - PACKAGE LABELING

	•			
	ide which of the four answers is onding number in the blank at the righ		orrect, or most nearly correct; then	write the
	Pure Food and Drug Administratering:	ion	is responsible for enforcing laws	1
	Weights and measures Ingredients and labels		Sanitation Safety	
	orcement of regulations that dea surement is the responsibility of the:	l w	ith products sold by weight or	2
2. 3.	Division of Measurement Standards Pure Food and Drug Administration County health departments State Health Department			,
3. Lab	els should never be placed on a packa	ge w	there they conceal the:	3
	Price Weight		Code date Fat	;
4. For	a neater looking display of meat, pack	kage	s should be labeled:	4
	On the edge In the corner		On the back side In the center	
	he scale weighs in pounds and ounce rest:	es, t	he weight should be correct to the	5
	Quarter pound Hundredth of an ounce		Quarter ounce Half pound	
6. The	Bureau of Weights and Measures requ	ires	only that meat labels tell the:	6
	Weight and price per pound Weight and total price		Price per pound and total price Grade and price per pound	
	at information on labels produced by takes?	aut	omatic scales is used to track down	7
			Company identification Cut identification	•
8. The	cut identification on the label usually	pro	ovides the:	8
	Name of the cut Kind of meat		Ingredient content All of the above	

9. Standardized labeling at this time is:

9.____

- 1. Compulsory
- 2. Voluntary

- 3. Nonexistent
- 4. Under consideration
- 10. What information on the label tells the meatcutter when to remove unsold meat from the display case?
- 10.____

- 1. Cut identification
- 2. Company identification
- 3. Code date
- 4. None of the above

TOPIC 4 METHODS OF WRAPPING IN SERVICE MARKETS

Decide which of the four answers is correct, or most nearly correct; then write the corresponding number in the blank at the right.

orrespe	onding number in the blank at the figi	11.		
	ouble thickness triangle wrap shou owing meats?	ld n	not be used for which one of the	1
	Liver Fish fillets		Pork chops Chicken parts	
2. Whi	ch one of the following tems should	not	be wrapped in 15-inch-wide paper?	2
	Whole ham 1 lb. ground meat	3. 4.	2 pork chops 3 lamb chops	
3. Whi	ch one of the following items should	not	be wrapped in 18-inch-wide paper?	3
	Half pork loin roast 7-bone roast		Leg of lamb 3 yeal chops	
4. The	triangle wrap is also known as the:		•	4
	Butcher wrap Drugstore wrap		Freezer wrap Apothecary wrap	
5. Whi	ch one of the following purchases sho	ould	be wrapped in 18-inch-wide paper?	5
-1. 2.	1 lb. stew meat 3 sole fillets		3 lamb hearts 3 rib roasts	
6. Wax	ed paper should always be used when	me	at is:	6
	Shown to the customer Wrapped		Weighed All of the above	
7. The	drugstore wrap is used only when m	neat	is to be frozen for a period longer	7
	24 hours 3 days	3. 4.	10 days 2 weeks	
8. The	triangle wrap is used the most often i	n th	e: , , ,	8
	Self-service market Handy market		Service market Independent market	,

the	outer wrapper?				
	Butcher paper Waxed paper		Brown paper Impregnated pa	aper	
0. One	of the secrets of successfu	l packaging is:			10

Wrapping tightly
 Using a minimum of paper

3. Making a bulky wrap4. Using a double wrap

TOPIC 5 - METHODS OF WRAPPING IN SELF-SERVICE MARKETS

	ide which of the four answers is onding number in the blank at the right		orrect, or most	nearly	correct;	then	write	the
1. Whi tray	ch one of the following meat items?	sho	ould be packaged	in a lov	w sidewal	1	1	
	Oxtails Pork neckbones		Cut-up chickens New York steak		~		•	
2. The	automatic wrapping machine will suc	cess	fully wrap:		•		2	
	Pulp trays Plastic trays		Board trays All three trays					
3. Wha	at should be done with cubed steaks?	tha	at are too large to	fit in a	No. 17-5	S	3	
2. 3.	Use a tray of same length but slight! Use a tray of same width but longer. Use a tray of same dimensions but sl Trim to fit.	•		•	,			,
	operator must reset the semiautomerent:	atic	wrapping machin	e for pa	ackages o	f	4

	Commodity insert only Tare only		Price and tare on All of the above	ly	,			
6. Whi	ch of the following operations does th	ne at	utomatic labeler pe	erform?		`	6	
	Weighs and labels package Seals and labels package		Conveys and labe Seals, weighs, and			**		
7. Wha	at device is used to seal the hard-to-wr	арс	euts of meat?				~7. <u> </u>	
	Hot wire Hand iron		Hot plate Electric torch	•	4	<i>.</i> -		

8. Peach paper is a specially treated material that is used only for:						
Packaging large of	vith a high moisture cor quantities of ground rou ces of fresh meat in stor d meat products	ind	. +			
9. The semiautomatic w	rapping machine makes	a wrap similar to the	:	9		
 Hand wrap Triangle wrap 	3. 4.	Drugstore wrap Hot plate wrap				
10. In shops that use wra all the meat cut by:	· • • • • • • • • • • • • • • • • • • •	•	an usually wrap	10		
 3 cutters 5 cutters 	3. 4.	8 cutters 10 cutters	,			

TOPIC 6 - PREPARATION OF MEAT FOR THE HOME FREEZER

Dec correspo	ide which of the four a conding number in the blank	nnswers is cat the right.	orrect, or mos	t nearly correct; the	en write the
1. Whi	ch of the following meats sh	ould have all	fat removed bef	ore it is frozen?	1
	Beef Veal		Lamb Pork	• 1	
2. Bac leas	terial growth will continue to t:	until the temp	perature of the m	neat is lowered to at	2
	0° F. 5° F.	3. 4.	10° F. 20° F.		
3. An	essential requirement of ma	terial used to	wrap meat for fi	reezing is that it be:	3
	Moisture proof Vapor proof		Transparent Elastic		
4. Wha	t is the maximum time that	cut ham may	satisfactorily be	kept frozen?	4
	6 months 4 months		2 months 1 month		
5. Wha	t is the maximum time that	beef can be s	afely kept frozei	n at 10° F.?	5
	12 months 6 months		4 months 2 months		,
6. Whi free	ch one of the following is rzer?	not a natural	process that me	at is subject to in a	6
	Saturation Spoilage		Dehydration Oxidation		
7. Free	ezer burn is caused by the lo	ss of moisture	e through:		· 7
	Oxidation Evaporation	3. 4.	Cold temperatu Dehydration	nres	
8. Wha	t process produces a flat, ra	ncid, and unp	oleasănt taste in r	neat?	8
	Dehydration Spoilage		Freezer burn Oxidation		•

9. It is possible to refreeze thawed meat without it becoming spoiled if:		9
1. The meat was fresh when it was first frozen.		•
2. The thawing out process was fast.		
3. The time in the thawed state was short and the refreezing time was fast.		*
/4. All of the above conditions are frue.	•	
10. When unfrozen meat is placed in the home freezer, it should be:		10
1 Wronned in small medicades and placed arranged the smalle		

- Wrapped in small packages and placed around the walls
 Placed in the center of the freezer compartment
- 3.4 Wrapped in one package4. None of the above

TOPIC 7 - HANDLING FROZEN MEATS

4. Double wrap the package.

Decide which of the four answers is correct, or most nearly correct; then write the corresponding number in the blank at the right.

	·		
1.	The desired temperature for storing fro	ozen meats is:	1
	1. 20° F. 2. 10° F.	3. 5° F. 4. 0° F.	
2.	The maximum storage life of frozer conditions is:	halibut steaks kept under ideal freezer	2
	1. 4 months 2. 6 months	3. 10 months4. 12 months	
3.	What is the maximum storage life of ideal freezer conditions?	frozen salmon steak when it is kept under	3
	 4 months 6 months 	3. 10 months 4. 12 months	
4.	Cutting frozen meats as close to the important with:	e time of sale as possible is particularly	4
	 Beef Veal 	3. Lamb 4. Pork	•
5.	What is the best way to maintain eye a meats that are packaged in the market	appeal and correct tare allowance in frozen	5
•	 Place soakers inside the package. Place paper towels inside the package. Rewrap the package daily. 	rage.	

UNIT F Market Operation

TOPIC 1 - TYPES OF MARKETS AND MARKET LOCATIONS

	ide which of the four answers onding number in the blank at the rig		orrect, or most nearly correct; then	write	the
1. Whi	ch one of the following was once the	mos	st common type of meat market? .	1	
	Chain store Individual meat market		Locker plant Supermarket		
2. Disc	count houses rely on extensive advert	ising	compaigns to:	2	
2. 3.	Drive out the competition Sell more meats than any other mer Attract large numbers of customers Keep prices high		ndise	• .	
	it should be the first consideration oness for himself?	of th	e meatcutter who wants to go into	3	
	Type of equipment required Name of the market		Number of employees needed Location of the market		
	ch type of market requires a consid- nity everyday?	erab	e amount of pedestrian traffic in its	4	
	Locker plant Supermarket		Individual meat market Chain store

All of the above locker plant operator is basically a: Retailer Fabricator 3. Wholesaler 4. Processor t for market space is usually what percent of the sales volume? 2 to 4 percent 3. 6 to 10 percent

UNIT F - MARKET OPERATION

TOPIC 2'- MARKET LAYOUT

Decide which of the four answers orresponding number in the blank at the re	is correct, or most nearly correct; then	write the
1. Which department should be given firs store?	t consideration in the planning of a food	1
Housewares Meat	3. Produce 4. Sundries	
2. Storage coolers should be located:	•	2
 As near as possible to an outside example. In full view of the customers Directly behind the meat counter Wherever adequate space is availab 		
3. In a U-shaped meat department arrange and refrigerator entrances is:	ement, the best place to locate backroom	3
 Beside one arm of the U As near the fish display as possible As near the fresh meat display as p At the rear center 		,
4. Compared to a service market with simi	lar volume, a self-service market requires:	4
 Less space overall Less cutting space and more wrapp Twice as much preparation room Twice as much cutting space 	ping.space	1
5. Cuts that do not sell readily and require	extra promotional effort are called:	5
 Push items Variety meats 	3. Demand items4. Impulse items	
5. Where should impulse items be placed in	the display case?	6
 Cold areas Hot spots 	3. Low racks 4. By the scales.	
7. As a rule, market operators try to group	meats according to:	7,
 Type of animal Price 	3. Cooking methods4. Demand	•

8. In the self-service market, special equipment should be placed as near as possible to the:					
•		₹.			
1.	Service bell	3.	Cold storage room		
	Display case		Cutting room		
9. Wha	at is the most common locat	ion for the m	eat department?	9	
1.	Middle of the store	3.	By an overhead rail		
2.	Near the entrance		Rear and side walls		
10. Wha	at is required for the layout	of a meat der	partment in a self-service market?	10	
1.	Flow pattern	3,	Loading ramp		
2	Door location	′4.			

UNIT F - MARKET OPERATION

TOPIC 3 - KEEPING AND USING RECORDS

Decide which of the four answers is correct, or most nearly correct; then corresponding number in the blank at the right.	write the
1. For inventory, the price recorded should be the:	1
 Actual cost of the item Expected retail price Retail price at the time the meat was received Difference between the cost and retail price 	
2. If the gross sales are \$11,000, the gross profit is \$2,400, the merchandise bought is \$8,000, and operating expenses are \$1,900, the percent of gross profit is:	2
1. 30 2. 21.82 3. 45.83 4. 72.55	
3. In the example given in Question 2, what is the percent of operating expenses?	3·
1. 5.79 2. 17.27 3. 23.75 4. 79	
4. In calculating profits, the previous inventory should be:	4
 Added to gross sales Subtracted from merchandise bought Added to present inventory Added to the merchandise bought 	
5. Inventory control means:	5
 Taking inventory at a stated time each month Using two persons to take inventory Taking an accurate inventory Increasing and decreasing stock for expected supply and demand 	
6. If the gross sales are \$7,200, the merchandise used is \$5,500, and the operating expenses are \$1,550, the percent of gross profit is:	6
1. 2.08 2. 21.53 3. 23.61 4. 30.91	,
